

Key Information

PATHWAYS & TERRAINS -

Harvest Rock is predominantly grass parklands with sealed and unsealed pathways.

Bartels Road will be covered with artificial grass where Truck Town and the Cellar Door are located.

Please note: due to the nature of building events, distances between key areas may differ slightly. We will provide up to date distance and pathway information closer to the event date.

DISTANCES -

The distance from the Main Entrance to each stage is approx.:

140 metres to the Vines Stage

440 metres to the Harvest Stage.

DROP-OFF LOCATION -

There is a vehicle drop-off location on Rundle Street for patrons with accessibility requirements.

The drop-off location is approx. 100 metres from the Main Entrance.

VIEWING PLATFORMS -

Both stages have dedicated accessible viewing platforms. To gain access, please email our friendly Accessibility Liaison.

AMMENITIES -

Disabled toilets are located in the two main toilet pods approx. 90 - 120 metres from stage viewing decks.

WEATHER -

We are expecting dry weather at this year's event, so unsealed pathways may create dust. In the event of wet weather, Harvest Rock will provide an update on any amendments to pathways and site conditions via social media.

CONTACT EMAIL ADDRESS -

For accessibility queries and Companion Card tickets, please email accessibility@harvestrock.com
